Design

Michele Cadore

Michele Cadore was born in 1965 in Florence. The design has always been his dream since he was a child. The arrival point was the opening of his own design study in 1989. Before he got his diploma at the Institute of Art and graduated in Architecture. His own and main interest isn't Architecture in itself but rather the objects and their industrial production. "My lines are always clear; I think this fits well with the requirements of the firm Enrico Pellizzoni". Thanks to this collaboration Michele Cadore can dedicate himself to his first love: the industrial design. This true passion rewarded him with prizes like Top Ten for the chair of the year in 1997 and Good Design in Birmingham for a sofa.
