Design

Cappelletti&Pozzoli

Giuliano Cappelletti was born in Cantù in 1946. Enzo Pozzoli was born in the same town four years later. Both got their diploma at the Institute of Art and both graduated in Architecture at the Polytechnic in Milan. They had got the same background and they opened their professional design study Udacanturiodesign in 1974. The expressive rigor is the "must" of this design study that is engaged in the planning of single furniture elements as well as whole rooms or houses, that plans re-styling in the public sector as well as in the private one, that designs offices as well as showrooms and stores. Prizes and awards come soon: the most important ones are the "Compasso d'Oro" in 1990 and the "Five Star Prize" in the years 1988, 1989 and 1990.
